25th November 2024

Dear Tim, Karen, and everyone at New Milton Bowling Club,

From everyone at Jessie May, I want to say huge thank you for your recent donation of an absolutely incredible £3000.00. I can officially confirm receipt of this.

When Jessie May nurses visit a family, they take over the complete care of the child, this means the parents who are caring for their child 24/7 can take a break – that is a priceless gift. The parents can enjoy some much needed downtime, this might mean they get some one on one time with a sibling, get some much needed sleep or go out and do some shopping. Without their Jessie May nurse, none of these things would be possible and you have helped to make that happen.

People hear the words “palliative care” and think it's all doom and gloom. That's not what the reality is like. Our Nurses have an extraordinary job, the majority of their time spent visiting and having fun with great children, encouraging them in achieving the best of their ability and celebrating the small wins along the way. Our families are going through the hardest times but we are there with them because people like you support us.

So from all of our nurses, families and the rest of the Jessie May team – thank you! It really does mean the world! Please keep in touch as we would love to hear from you.

“I can't imagine life without Jessie May – they have become an integral part of Margot's life; our lives and they give us that huge love and support that is invaluable.

We'd also like to thank everybody at Jessie May for the support that we have received since we have been working together. As a family we have benefitted hugely, and we love the interaction and engagement that you give us and the benefit that you give to Margot. So, thank you from everyone at the Griffiths family, keep up the great work and we just hope that other families get to benefit and appreciate the support that you've given us.” Greg, Margot's Dad.

Thank you!

Best Wishes,

Emma
